## Dangerous photograph

To the Editor:

We were alarmed to see a photograph in the August 10 Lawrence Eagle-Tribune of Barry Enos and James Denoncourt having a picnic on the railroad tracks in Andover.

Boston and Maine Railroad conducts a safety program in the schools to tell students how dangerous it is to play on the railroad tracks because a train can't stop as fast as a car, and, besides, railroad tracks are private property.

We will send Barry and James a note and some books on railroad safety like those we distribute in the schools.
